COPYPRINTER

There's another way to handle extended print runs. It saves wear and tear on your copier, it's faster, and it will cut your printing costs dramatically. It's the Gestetner 5430 CopyPrinter, a 300 dpi, digital printing system that produces up to 120 clear, crisp copies per minute and offers high-quality imaging on a variety of paper types and sizes, even 11" x 17" sheets.

Don't just copy it, make it better. The 5430 offers varied print resolution. That means that printing jobs in Text or Text/Photo modes are optimized for image content. At the same time, you have reduction, enlargement and zoom features, as well as the ability to rotate images for printing.

Easy and economical. Using the Gestetner 5430 CopyPrinter for jobs of 50 or more copies lowers your cost per-copy to typically less than a half-cent.

A new, simplified operating panel presents frequently used function keys at the front in a logical, intuitive display. More specialized functions are controlled by covered, out-of-sight keys that are accessed as needed. Paper-loading and master-setting are a breeze.

Spot color: inexpensive and hassle-free. Your color choices are virtually unlimited, with a broad spectrum of standard, fast-drying inks available. Spot color can even be a custom color of your choice with optional PMS exact matching. Highlight a headline. Brighten a document. Changing ink drums is fast and easy.

Paper? You choose! The CopyPrinter's short paper path means you can use a wide range of paper types and sizes: card stock, envelopes — whatever you need to get the job done. New advanced paper-feeding features make the 5430 exceptionally reliable and misfeed-free.

Get the connection. Save time and get the best output possible by printing directly from a Windows-based PC or network, or a stand-alone Macintosh. Choose from three available, optional print controllers. Whether embedded or not, Gestetner has a connection to fit your needs.

Quality and Quiet. The 5430 operates smoothly and quietly — an important feature in any busy office environment.

Quality, affordability and convenience in an exceptionally reliable machine makes the Gestetner 5430 CopyPrinter the one to have. For more information about the Gestetner 5430, contact your authorized Gestetner sales location.

Specifications:
