Fast, affordable color and black
& white printing.

Gestetner C7521n

Bringing speed and affordability to the workgroup.

Increase your productivity without increasing your budget. The Gestetner C7521n prints both color and black & white documents at a quick 22 ppm. It also packs a variety of workgroup-level features into a surprisingly affordable package.

Built for busy workdays.

Whether you're printing a monochrome memo or a colorful presentation, the C7521n can keep pace with your busy workday. Compare the Gestetner C7521n to other printers at the same price point and you'll discover the C7521n has a lot more to offer—like a high-performance print controller and a powerful 533 MHz processor for fast first print out speed, and impressive 22-ppm print speeds in both black & white and color.

The Gestetner C7521n isn't just fast, it's also easy to use. Connectivity is simplified thanks to standard 10/100BaseTX and USB 2.0 network interfaces. And optional wireless upgrades like IEEE 802.1b and Bluetooth are also available, so you can work anywhere.

Grow your printer. Grow your business.

When your business is ready to expand, the functionality of the C7521n can grow right along with it. Increase capacity when you add one or two 530-sheet paper trays to the already generous 630-sheet supply. Or produce two-sided prints automatically with the optional internal duplex unit. These extras install either internally or below the main unit, so you can take on more work without taking up more space.

Continue expanding your capabilities with the IS200e Image Scanner. Scan-to-Email captures images and automatically converts them to JPEG, TIFF or PDF files, which can then be simultaneously sent as attachments to up to 100 e-mail addresses. Scan-to-Folder boosts productivity by sending captured images directly to a designated Windows folder. And Scan-to-FTP circumvents file size limits by sending scanned images directly to an FTP server. The IS200e can also be used to create convenient full-color or black & white copies.

Color, speed, connectivity and expandability. Everything you want for your workgroup—at a price you can afford. For more information on the Gestetner C7521n color laser printer, contact your Gestetner dealer, today.
