# A040/A041

# *Full-Size Copies For All Types Of Businesses.*

WITH THE GESTETNER A040 AND A041 WIDE-FORMAT COPIERS, YOU CAN ELIMINATE THE HASSLES OF MAKING SIZE-FOR-SIZE COPIES OF LARGE DOCUMENTS. THE IDEAL WIDE-FORMAT COPYING SOLUTIONS FOR SMALLER ARCHITECTURAL FIRMS, BUILDERS, INTERIOR DESIGN FIRMS AND ADVERTISING AGENCIES, THE A040 AND A041 ARE EASY-TO-USE, KIND TO YOUR BUDGET AND A GREAT ALTERNATIVE TO COSTLY AND ENVIRONMENTALLY "UNFRIENDLY" OPTIONS.

## ***FINALLY, A WORKABLE SOLUTION...***

You could outsource the work and hope it gets done on time. Purchase a blueprint machine and deal with ammonia fumes. Or use your existing office copier and try to tape together an oversize copy in several different sections.

But, install an A040 or A041 and you can meet the challenges of reproducing large originals such as blueprints, posters, drawings or plots.

Depending on your large-format output needs, choose the A040 single-copy system or the versatile, multi-copy A041. Both systems offer professional

quality output at four copies per minute on paper sizes that range from 8.5" x 11" to 36" x 48" in multi-copy mode, or up to 9'8" in single-copy mode. Best of all, your work stays in-house, which ensures that you maintain complete job control from start to finish.

## ***THAT'S EASY TO USE...***

You won't need a dedicated employee or hours of training time learning to operate the A040 or A041. An intelligently designed control panel, clear operating instructions, and intuitive operation ensure that you always get the most out of your A040 and A041.

#### **THAT FITS IN TIGHT SPACES...**

If you're short on office space, the A040 and A041 are a perfect fit. A slick clamshell design enables full front access for all copying tasks – from feeding originals, to managing mis-feeds, or replacing toner and changing paper rolls.

#### **THAT'S LOW MAINTENANCE...**

With the A040 and A041, you won't struggle with large rolls of paper. Simply slide the spe-

cially designed flange inserts into each end of a replacement paper roll, place the roll in the paper compartment and your work is done.

Plus, Gestetner Semi-Synchro Cut (A040) and Synchro Cut (A041) technology ensures that your copies are the exact size as your originals – whether you supply paper from the standard sheet roll or the optional roll feeder.

#### **THAT ALWAYS LOOKS GOOD...**

The A040 and A041 ensure that you always make a good impression on your clients – so they'll come back time-and-time again!

Regardless of original type and condition, sophisticated 14 Step Density Control technology guarantees professional image quality with no background muddiness.

Partial Copy enables you to copy a small section of an original and then check the output quality before you commit to a full-size copy – a great way to reduce media costs when copying an original that's in less than ideal condition.

the EPA's Energy Star guidelines, the A040 and A041 feature low ozone emissions and exceptionally quiet operation.

#### **THAT LOOKS GOOD ON YOUR BOTTOM LINE**

The benefits of an in-house large-format copying solution add up quickly – no outrageous per-copy costs, no missed deadlines, and no relinquishing of job control.

So pick up the phone and call your authorized Gestetner dealer to see the Gestetner A040 and A041 at work. It's a smart thing to do.

*The layout of buttons and controls on the display panel is simple and intuitive. Controls are right where you would expect them to be, and instructions are clear and to the point. Operation is so simple that anyone in your organization can learn in a few minutes.*

#### **THAT CONTRIBUTES TO A HEALTHY WORK ENVIRONMENT...**

Gestetner is committed to providing products that are easy on the environment and contribute to a comfortable work environment. Designed to meet

# A040/A041
